WORK EXPERIENCE

PT Bina Sarana Sukses (BSS)

Jakarta, Indonesia

IT Operations Staff

Jun 2025 – Feb 2026

- Served as Business Process Owner for Asset Management System (AMS), the company-wide system of record for asset lifecycle management, handling approval validation and monitoring of asset transactions and user requests.
- Managed and reconciled **4,000+ IT assets** across multiple locations, improving inventory accuracy and keeping the system and physical assets closely aligned through daily monitoring and cross-site reviews.
- Owned end-to-end SAP procurement workflow (PR → PO → GR), coordinating cross-functional approvals and supporting timely asset acquisition.
- Performed quality control and asset registration for incoming hardware, preventing non-compliant assets from entering operational use.
- Conducted **quarterly** stock opname across sites, identifying and resolving discrepancies to maintain audit readiness and compliance.
- Resolved daily hardware, software, and network incidents, ensuring minimal disruption and continuity of operations across office locations.

PT Global Digital Niaga (Blibli)

Jakarta, Indonesia

IT Technical Support Helpdesk

Aug 2022 – Dec 2024

- Resolved **30+ tickets** daily via OTRS across email, MS Teams, and phone, maintaining **95%+ first-level resolution rate** for **500+ users**.
- Supported enterprise-wide incident response during **July 2024 CrowdStrike outage**, contributing to recovery of **700+ affected devices**, including weekend support.
- Delivered L1/L2 support across enterprise applications, Windows environments, hardware, software, and network connectivity.
- Managed escalation workflows for access and cross-team issues, ensuring zero critical incidents were missed during handoffs.
- Developed knowledge base articles and ticket resolution templates, improving team efficiency and standardizing troubleshooting processes.

PT Sunindo Kookmin Best Finance (SKBF)

Jakarta, Indonesia

IT Support & Development Staff

Nov 2020 – Jul 2022

- Administered Active Directory for **200+ users**, managing user provisioning, access control, and account lifecycle.
- Developed SQL queries to automate daily operational reporting, reducing processing time **from hours to seconds**.
- Performed ad-hoc SQL data validation and correction to improve reporting accuracy and data integrity.
- Built and maintained asset tracking system for **320+ devices** using Excel, establishing structured inventory management without dedicated tools.
- Configured hardware, software, and network environments for onboarding and company-wide device refresh initiatives.

EDUCATION

Universitas Negeri Jakarta

Jakarta, Indonesia

Bachelor of Electrical Engineering (S1 Teknik Elektro) | GPA: 3.41 / 4.00
