PROFESSIONAL SUMMARY

IT professional with 5+ years of experience in IT operations, asset management, and enterprise support across fintech, e-commerce, and corporate environments. Handled 30+ tickets a day with a 95%+ resolution rate at Blibli. Managed tracking and SAP procurement workflows for 4,000+ devices at Bina Sarana Sukses. Strong in troubleshooting, reporting, and keeping data accurate.

WORK EXPERIENCE

PT Bina Sarana Sukses

Jakarta, Indonesia

IT Operations Staff

Jun 2025 – Feb 2026

- Tracked status of 4,000+ IT assets daily (in use, available, under repair) and flagged mismatches between the Asset Management System and physical stock before they accumulated.
- Ran routine physical inspections on laptops, PCs, and mini-PCs; corrected records on the spot when condition didn't match what was logged.
- Handled procurement requests from submission to approval: reviewed completeness, walked requests through management sign-off, then pushed PR to logistics and PO to procurement — all tracked in AMS and SAP (PR/PO/GR).
- Inspected incoming devices against PO specs before registering them in AMS and assigning asset numbers.
- Handled helpdesk tickets alongside asset duties: troubleshoot hardware, software, and network issues for office users daily.

PT Global Digital Niaga (Blibli)

Jakarta, Indonesia

IT Technical Support Helpdesk

Aug 2022 – Dec 2024

- Handled 30+ tickets a day via OTRS and closed most within SLA, consistently, across 500+ users.
- Maintained a 95%+ resolution rate — most issues resolved without escalation.
- Ran L1/L2 troubleshooting across enterprise apps, hardware, and network: login issues, connectivity faults, and everything in between.
- Documented recurring issues and fixes in the ticketing system so the team wasn't starting from scratch each time.
- Escalated to the infrastructure team when tickets exceeded helpdesk scope; kept handovers clean so nothing got dropped.

PT Sunindo Kookmin Best Finance

Jakarta, Indonesia

IT Support & Development Staff

Nov 2020 – Jul 2022

- Managed Active Directory for 200+ employees: account creation, access control, and changes for joiners, role changes, and leavers.
- Handled day-to-day IT: shared drives, printers, and LAN — the things that break when nobody can afford downtime.
- Wrote SQL queries for weekly operational reports delivered to management.
- Set up hardware, software, and network devices for new and existing staff.

EDUCATION

Universitas Negeri Jakarta

Jakarta, Indonesia

Bachelor of Electrical Engineering (SI Teknik Elektro)
